BUYER-RUN BOUNDARY

These gates and assets are researcher-proposed buyer-run recommendations. Reacham did not run them or observe their outcomes.

What is in the pack

Demand Map PDF

FILE

demand-map.pdf

USE IT FOR

The complete founder-approved, print-ready decision artifact.

Migration Worksheet PDF

FILE

migration-worksheet.pdf

USE IT FOR

A polished worksheet with fillable project, status, notes, and decision fields.

Migration Worksheet CSV

FILE

migration-worksheet.csv

USE IT FOR

The same checklist in an editable spreadsheet-friendly format.

Launch Copy TXT

FILE

launch-copy.txt

USE IT FOR

Editable permitted copy with disclosure and channel notes kept beside it.

Measurement Tracker CSV

FILE

measurement-tracker.csv

USE IT FOR

Frozen buyer-run gates with blank fields for buyer-reported results.

Read Me PDF

FILE

read-me.pdf

USE IT FOR

A concise guide to the files, permissions, and approved artifact identity.

Use the assets honestly

Community contribution post

DISCLOSURE

Disclose the builder relationship and keep the contribution useful without requiring signup.

PERMISSION

Post only where community rules or a moderator permit useful migration help.

Forum/support reply

DISCLOSURE

State that the worksheet is a neutral aid and does not replace the platform support team.

PERMISSION

Reply only to an existing relevant question; do not contact individual users privately.

Migration/comparison worksheet

DISCLOSURE

The worksheet is informational and does not promise a successful import.

PERMISSION

Give it to people who request it or where a public contribution is permitted.

Founding-offer page copy

DISCLOSURE

State that this is a proposed, nonbinding test until the buyer chooses to run it with reviewed payment terms.

PERMISSION

Do not publish until the buyer owns the page and approves its terms.

Measurement sheet

DISCLOSURE

Keep buyer-reported results distinct from directly observed product events.

PERMISSION

Use only with participant-consented, privacy-minimized records.

Recommended order

- Read the Demand Map and its evidence limitations before choosing a gate.
- Complete the Migration Worksheet and keep the CSV as the editable working copy.
- Adapt the TXT copy only inside its stated channel and disclosure boundary.
- Freeze the tracker before action; record buyer-reported results without relabeling them as Reacham-observed outcomes.

NEED A CLARIFICATION?

After you attempt the first declared gate, you may request one asynchronous clarification or bounded revision within 30 days of delivery. It may clarify cited evidence or revise one declared gate or one supplied launch asset using your buyer-reported result. It does not include a new niche, new market, new research corpus, or a Reacham-run experiment. Your result remains buyer-reported: Reacham did not run or verify the gate. Sign in and open <https://reacham.app/dashboard/demand-maps/public-tv-time-example/report> to submit the exact target, UTC attempt time, buyer-reported result, and evidence into the audited request ledger.
